Who have filled the form:		Date:	

If there are changes in the information in this form, must AgroManagement be informed.

The company is responsible for implementing the standard requirements before certification. The company must have worked with the system minimum 3 months before certification. For customers that not have been certified of AgroManagement before must the certification take place under harvest/handling the first year for each crop. The follow years can the certification take place up to 4 months before the valid time is ended on the certificate without there are changes in the next period of valid time. The customer must commit themselves to follow the GLOBALG.A.P. requirements and the certification rules for AgroManagement.

The application can be send to:
